by a team of ex-consultants from McKinsey & Company, the Boston Consulting Group, and Bain & Company. This book fills the gap left by others by providing you with plenty of high-quality cases to practice on before your interview. Many cases are from actual interviews at the top-tier firms and cannot be found elsewhere. After working through this book, you will be prepared for every type of case question you may encounter: market sizing, estimation, operations, industry analysis, pricing, growth strategy, marketing, investment, M&A, market entry, customer segmentation, profitability, valuation, logic, issue identification, cost analysis, market expansion, and brainteasers, to name a few. These cases will help

you prepare for interviews at leading management consulting firms, including McKinsey & Company, The Boston Consulting Group, Bain & Company, Oliver Wyman, Strategy& (formerly Booz & Company), A.T. Kearney, Roland Berger, and L.E.K, as well as for consulting roles at large firms such as Accenture, Deloitte, PwC, EY, and KPMG. Note that is a workbook, designed to complement other preparation books. You will have a hard time solving these cases without learning first elsewhere how to do so, e.g. which frameworks to use, how to use them, and how to structure a solution.

opportunity to apply pharmacology concepts to real-world situations. The text features 50 case studies based on real-life clinical situations that challenge students to think critically and develop effective problem-solving skills. Case studies present patients' medication history, enabling students to learn about the disease process from the point of medication use – an approach used in actual clinical practice. Other features include a review of key terms, home and intensive care scenarios, and a list of variables that must be considered in order to conduct an appropriate case analysis. Also present are a series of questions that will help guide students in developing effective ways to handle the scenario. Perfect for

The case studies in this book use authentic injury assessment examples to help readers link theory and clinical practice with the goal of becoming competent clinicians. The situations are realistic and present more than 130 of the injuries that athletic trainers may encounter in the real world. The questions that accompany the cases ask readers to identify clinical and differential diagnoses, critique the evaluating clinician's actions, recommend treatment, comment on ethical choices, and make many of the decisions
