~~Aerospace series.
Quality management ...~~

AS9100 is a widely adopted and standardized quality management system for the aerospace industry. It was released in October, 1999, by the Society of Automotive Engineers and the European Association of Aerospace Industries.

AS9100 replaces the

Read Free As En 9100 Series

earlier AS9000 and fully incorporates the entirety of the current version of ISO 9001, while adding requirements relating to quality and safety.

Major aerospace manufacturers and suppliers worldwide require compliance and/or registration to AS9100 as a co

Read Free As En 9100 Series

Quality in the aerospace industry, from commercial to defense aviation, is measured against the AS/EN 9100 standard series.

AS/EN 9100 aerospace standards, developed by the International Aerospace Quality Group (IAQG), covers the entire supply chain.
