At Hand of Persons Unknown is not for the faint-at-heart, or for the casual African American history buff. This book is grisly, ghastly, and tragic. Phillip Dray delves into a subject that many cannot comprehend, one where people were sadistically murdered for questioning the status quo or for something as innocent as an adolescent catcall.

Dreams, a novel of haunting metaphysical suspense about an elderly widow whose life is upturned when she finds an ominous note on a walk in the woods. While on her daily walk with her dog in a secluded woods, a woman comes across a note, handwritten and carefully pinned to the ground by stones. Her name was Magda. Nobody will ever know who killed her. It wasn't me. Here is her dead body. But there is no dead body. Our narrator is deeply shaken; she has no idea what to make of this. She is new to this area, alone after the death of her husband, and she knows no one. Becoming obsessed with solving this mystery, our narrator imagines who Magda was and how she met her fate. With very little to go on, she invents a list of murder suspects and possible motives for the crime. Oddly, her suppositions begin to find correspondences in the real world, and with mounting excitement

Dread, the fog of mystery starts to fade into menacing certainty. As her investigation widens, strange dissonances accrue, perhaps associated with the darkness in her own past; we must face the prospect that there is either an innocent explanation for all this or a much more sinister one. A triumphant blend of horror, suspense, and pitch-black comedy, *Death in Her Hands* asks us to consider how the stories we tell ourselves both reflect the truth and keep us blind to it. Once again, we are in the hands of a narrator whose unreliability is well earned, and the stakes have never been higher.

In this brilliant crime novel from the author of *Missing*, *Presumed*, a detective investigates her most personal case yet: a high-profile murder in which her own family falls under suspicion. “[Susie] Steiner populates this hot-button narrative with achingly human

characters, but no one compares to the hormonal, mordantly funny mom-cop who will stop at nothing to save her son.”—People (Book of the Week) As dusk falls, a young man staggers through a park, far from home, bleeding from a stab wound. He dies where he falls, cradled by a stranger, a woman’s name on his lips in his last seconds of life. Detective Manon Bradshaw handles only cold cases. Five months pregnant, in pursuit of a work-life balance rather than romantic love, she’s focused on being a good mother to her two children: her adopted twelve-year-old son, Fly Dent, and the new baby. But the man died just yards from the police station where she works, so Manon can’t help taking an interest. And as she sidles in on the briefing she learns that the victim, a banker from London worth millions, is more closely linked to her than she could have imagined. When the case begins to circle in on Manon’s home

and her family, she finds herself pitted against the colleagues she once held dear: Davy Walker and Harriet Harper. Can Manon separate what she knows about the people she loves from the suspicion hanging over them? Can she investigate the evidence just as she would with any other case? Persons Unknown shows acclaimed author Susie Steiner writing her most intricate, suspenseful novel yet. Praise for Persons Unknown “A police procedural as concerned with the mysteries of human hearts as with who stabbed a banker to death at a park in Cambridgeshire. [Full of] winning prose, sympathetic characters and an appreciation of life’s joys as keen as a knowledge of its dangers.”—The Wall Street Journal “Susie Steiner blends the police procedural and the human drama perfectly.”—The Charlotte Observer “[Steiner] has created a masterful mystery within an engaging narrative perfect for Kate

From bestselling author David Nasaw, a sweeping new history of the one million refugees left behind in Germany after WWII In May 1945, after German forces surrendered to the Allied powers, millions of concentration camp survivors, POWs, slave laborers, political prisoners, and Nazi collaborators were left behind in Germany, a nation in ruins. British and American soldiers attempted

to repatriate the refugees, but more than a million displaced persons remained in Germany: Jews, Poles, Estonians, Latvians, Lithuanians, Ukrainians, and other Eastern Europeans who refused to go home or had no homes to return to. Most would eventually be resettled in lands suffering from postwar labor shortages, but no nation, including the United States, was willing to accept more than a handful of the 200,000 to 250,000 Jewish men, women, and children who remained trapped in Germany. When in June, 1948, the United States Congress passed legislation permitting the immigration of displaced persons, visas were granted to sizable numbers of war criminals and Nazi collaborators, but denied to 90% of the Jewish displaced persons. A masterwork from acclaimed historian David Nasaw, *The Last Million* tells the gripping but until now hidden story of postwar displacement and statelessness and of

The Telling Image is a stunning synthesis of civilization's changing mindsets, a brilliantly original perspective urging you to re-envision history not as a story of kings and wars but through the lens of shape. In this sweeping tour through time, Stark takes us from migratory humans, who imitated a web in round-thatched huts and stone circles, to the urban ladder of pyramids and skyscrapers, organized by hierarchy and measurements, to today's world of interconnected networks. In The Telling Image Stark reveals how buildings, behaviors, and beliefs reflect humans' search for pattern and meaning. We can read the past and glimpse the future by watching when shapes shift.
