"Within a day of receiving this book, I had consumed it... Absorbing, moving, and compulsively readable."--Lydia Davis In this affectionate, heart-warming chronicle, Rosamund Young distills a lifetime of organic farming wisdom, describing the surprising personalities of her cows and other animals At her famous Kite's Nest Farm in Worcestershire, England, the cows (as well as sheep, hens, and pigs) all roam free. They make their own choices about rearing, grazing, and housing. Left to be themselves, the cows exhibit temperaments and interests as diverse as our own. "Fat Hat" prefers men to women; "Chippy Minton" refuses to sleep with muddy legs and always reports to the barn for grooming before bed; "Jake" has a thing for sniffing the carbon monoxide fumes of the Land Rover exhaust pipe; and "Gemima" greets all humans with an angry shake of the head and is fiercely independent. An organic farmer for decades, Young has an unaffected and homely voice. Her prose brims with genuine devotion to the wellbeing of animals. Most of us never apprehend the various inner lives animals possess, least of all those that we might eat. But Young has spent countless hours observing how these creatures love, play games, and form life-long friendships. She imparts hard-won wisdom about the both moral and real-world benefits of organic farming. (If preserving the dignity of animals isn't a good enough reason for you, consider how badly factory farming stunts the growth of animals, producing unhealthy and tasteless food.) This gorgeously-illustrated book, which includes an original introduction by the legendary British playwright Alan Bennett, is the summation of a life's work, and a delightful and moving tribute to the deep richness of animal sentience.

The book 'Guide to Indian Railways (RRB) Assistant Loco Pilot, ALP Exam 2018 Stage I' covers: 1. Comprehensive Sections on: General Awareness, Arithmetic, General Intelligence & Reasoning and General Science & Technical Ability 2. Solved Papers for 2013 & 2014 Exams; 3. To translate the journey from a living cow to a glass of milk into tangible terms, Kathryn Gillespie set out to follow the moments in the life cycles of individual animals—animals like the cow with ear tag #1389. She explores how the seemingly benign practice of raising animals for milk is just one link in a chain that affects livestock across the agricultural spectrum. Gillespie takes readers to farms, auction yards, slaughterhouses, and even rendering plants to show how living cows become food. The result is an empathetic look at cows and our relationship with them, one that makes both their lives and their suffering real.
