More than any other introductory textbook, Don and Sandra Hockenbury's Discovering Psychology makes the story of psychology a captivating, highly personal experience for all kinds of students. Without sacrificing science, the authors draw on personal experiences and other real stories to illustrate essential concepts and important research directions in a recognizable, relatable way. This is especially true in the area of cutting-edge neuroscience, which the Hockenburys make extremely teachable and utterly absorbing without oversimplifying the presentation. Special Package: Each student copy of Discovering Psychology, Sixth Edition is packaged with the book's Study Guide and Worth Publishers' new Three-Dimensional Brain. DSM 5 Updates Available for Fall 2014 classes, this update version features new content from Sandra Hockenbury in response to the release of the DSM-5. This new content is integrated into the text without changing pagination or the structure of the chapters. A special DSM 5 Supplement by Sandra Hockenbury is available for Fall 2013 and Spring and Summer 2014 courses.

More than any other introductory psychology textbook, the Hockenburys' brief book presents the discipline with a unique understanding of today's

students--emphasizing its relevance and immediate impact on their lives. Without sacrificing science, the authors draw on personal experiences and anecdotes to illustrate essential concepts and important research direction. The "Fourth Edition" incorporates hundreds of new research studies throughout, with particular attention to areas of intensive current research and enduring student interest, including neuroscience, lifespan development, memory, and gender and culture issues. Also new is the dramatically enhanced media and supplements package, offering more ways than ever to help students make the study of psychology a part of their world.

Also new is the dramatically enhanced media and supplements package, offering more ways than ever to help students make the study of psychology a part of their world.

In this fresh new offering to the Intro Psychology course, authors John Cacioppo and Laura Freberg portray psychology as being an integrative science in two ways. First, they have written a text that reflects psychology's rightful place as a hub science that draws from and is cited by research in many other fields. Second, this text presents psychology as a unified science that seeks a complete understanding of the human mind, rather than as a loosely organized set of autonomous subspecialties. As psychology moves rapidly toward maturity as an integrative, multidisciplinary field, the introductory course offers an opportunity to teach all of psychology in one place and at one time. This text reflects that evolution--and the authors' excitement about it. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Written by leading scholar and award-winning teacher Julia T. Wood, INTERPERSONAL COMMUNICATION: EVERYDAY ENCOUNTERS, 8e relates theory and skills directly to students' everyday interactions as it delivers a solid introduction to interpersonal communication. Completely up to date, the new Eighth Edition integrates the latest communication research, including findings from more than 125 new sources. Reflecting the author's expertise in gender and social diversity, the text includes an unparalleled focus on diversity. The new edition also features increased coverage of social media and an expanded emphasis on ethical choices. It addresses such timely issues as emotional intelligence and forgiveness, interracial relationships, safe sex, ways to deal with abuse from intimates, race-related differences between conflict styles, and the

power of language. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Peter Gray's evolutionary perspective and emphasis on critical thinking have made his rigorous yet accessible introduction to psychology a widely respected classroom favourite, edition after edition. Now thoroughly revised, with the help of co-author David Bjorklund, Psychology invites and stimulates students to investigate the big ideas in psychological science. Psychology can also be purchased with the breakthrough online resource, LaunchPad, which offers innovative media content, curated and organised for easy assignability. LaunchPad's intuitive interface presents quizzing, flashcards, animations and much more to make learning actively engaging.

Previous editions ('Social Skills in Interpersonal Communication') have established this work as the standard textbook on communication. Directly relevant to a multiplicity of research areas and professions, this thoroughly revised and updated edition has been expanded to include the latest research as well as a new chapter on negotiating. Key examples and summaries have been augmented to help contextualise the theory of skilled interpersonal communication in terms of its practical applications. Combining both clarity and a deep understanding of the subject matter, the authors have succeeded in creating a new edition which will be essential to anyone studying or working in the field of interpersonal communication.
