Online Library European Commission Eaepc

Health is becoming increasingly important to the European Union. The EU Court of Justice has also been involved in many health-related issues. The Casebook on European Union Health Law offers practitioners and students an opportunity to

Online Library European Commission Eaepc

discover and understand the Court of Justice ' s case law through highlights from health (related) decisions. It presents a range of carefully edited extracts, that clearly illustrate the essence and reasoning behind each decision. Compiled to be used in conjunction with Maklu ' s EU Health Law Treaties and Legislation, this book covers an

Online Library European Commission Eaepc

important part of the graduate European health law course in a series of structured chapters dealing with human rights and health, public health, patient safety/consumer protection, safety and health at work, patient mobility, professional mobility, pharmaceuticals, medical devices, privacy and data protection, insurance,

Online Library European Commission Eaepc

competition and public procurement. The book is indispensable for practitioners and students of health law and policy.

European Commission Decisions on Competition provides a comprehensive economic classification and analysis of all European Commission decisions adopted

Online Library European Commission Eaecpc

pursuant to Articles 101, 102 and 106 of the FEU Treaty from 1962 to 2009. It also includes a sample of landmark European merger cases. The decisions are organised according to the principal economic theory applied in the case. For each economic category, the seminal Commission decision that became a reference point for that type

Online Library European Commission Eaepc

of anticompetitive behaviour is described. For this, a fixed template format is used throughout the book. All subsequent decisions in which the same economic principle was applied are listed chronologically. It complements the most widely used textbooks in industrial organisation, competition economics and

Online Library European Commission Eaepc

competition law, to which detailed references are offered. The book contains source material for teachers and students, scholars of competition law and economics, as well as practising competition lawyers and officials.

This book offers a clear and structured

Online Library European Commission Eaepc

examination of how joint bidding structures comply with competition rules in Europe. It explains how joint-bids could be considered as agreements aimed at distorting competition, the practice commonly referred to as bid rigging. The book demonstrates how the conclusion of joint-bid agreements could constitute grounds for

Online Library European Commission Eaepc

exclusion from public procurement
proceedings under Article 57(4)(d) of
Directive 2014/24/EU.

This book offers the first complete and up-to-date analysis of the European Union's regulation of medicines. Through a reasoned description ranging from

Online Library European Commission Eaepec

regulatory developments to the jurisprudence of the Court of Justice of the European Union, it delineates the current European pharmaceutical regulation system. Moreover, the economic and social implications caused by the market fragmentation linked to disparities in national pricing and reimbursement

Online Library European Commission Eaepc

schemes of pharmaceuticals are also explored here. In what was theorized to be a patchwork of rules and roles, the potential growth of the pharmaceutical industry is hampered and important inequalities in patient access are growing. What will be the next moves of European Union legislation to address the aging of the population, the

Online Library European Commission Eaepc

higher incidence of some diseases and the growing costs of innovative medicines? Answers to such questions are offered in this book.

In the late 1990s, the European Commission embarked on a long process of introducing a 'more economic approach' to EU Antitrust

Online Library European Commission Eaepc

law. One by one, it reviewed its approach to all three pillars of EU Antitrust Law, starting with Article 101 TFEU, moving on to EU merger control and concluding the process with Article 102 TFEU. Its aim was to make EU antitrust law more compatible with contemporary economic thinking. On the basis of an extensive empirical analysis of the

Online Library European Commission Eaecp

Commission's main enforcement tools, this book establishes the changes that the more economic approach has made to the Commission's enforcement practice over the past fifteen years. It demonstrates that the more economic approach not only introduced modern economic assessment tools to the Commission's analyses, but

Online Library European Commission Eaepc

fundamentally changed the Commission's interpretation of the law. Emulating one of the key credos of the US Antitrust Revolution thirty years earlier, the Commission reinterpreted the EU antitrust rules as aiming at the enhancement of economic consumer welfare only, and amended its understanding of key legal

Online Library European Commission Eaepec

concepts accordingly. This book argues that the Commission's new understanding of the law has many benefits. Its key principles are logical, translate well into workable legal concepts and promise a great degree of accuracy. However, it also has a number of serious drawbacks as it stands. Most worryingly, its revised interpretation of the

Online Library European Commission Eaepe

law is to large extents incompatible with the case law of the European Court of Justice, which has not been swayed by the exclusive consumer welfare aim. This situation is undesirable from the point of view of legal certainty and the rule of law.

Respected as the definitive textbook on the

Online Library European Commission Eaecp

subject, this is the stand-alone guide to EU law. The world-renowned authors offer the ideal balance of commentary, key cases, and materials to provide the most authoritative coverage and analysis.

Vertical agreements between undertakings at the various levels of a supply chain have long

Online Library European Commission Eaepc

been seen as a fundamental focus for antitrust legislation, such as the European Union ' s Vertical Block Exemption Regulation (VBER). It goes without saying that such issues are particularly prevalent in digital markets. This authoritative commentary analyses the main restrictions in vertical agreements, emphasising the

Online Library European Commission Eaepc

numerous new and contentious issues arising in the context of Internet distribution. It offers both legal and economic perspectives, as well as examines enforcement and possible changes to the legislation. The contributors – leading competition authority officials, lawyers, economists, and academics – provide in-

Online Library European Commission Eaepc

depth discussions of topics that have emerged as areas for conscious policy choices, including the following: restrictions of online sales; price parity obligations; resale price maintenance; the duration of non-compete obligations; sustainability agreements; geo-blocking practices; and restraint of trade in pharmaceuticals. The

Online Library European Commission Eaepc

contributions have emerged from the 2020 conference of the Global Competition Law Centre at the College of Europe in the context of the currently ongoing review of the VBER and vertical guidelines. With its multidisciplinary approach highlighting the efficiencies and harms caused by the restrictions at stake, this important book

Online Library European Commission Eaepc

clearly shows how law and practice apply to specific issues relating to digital markets and how the law is likely to change in the near future. It will be of immeasurable value to lawyers and officials concerned with European competition law and academics in the field.

Online Library European Commission Eaepc

EU competition law plays a central role in the process of European integration both as a multifaceted tool for creating and policing the internal market as well as in organising national markets. Yet as a consequence of this role it is also subject to increasingly complex demands, a proliferation of (sectoral) regimes, and multiple objectives at

Online Library European Commission Eaepc

both an EU and national level. This profligacy entails risks of fragmentation and divergence - which could jeopardise the proper functioning of the internal market. In this examination of EU competition law, Wolf Sauter discusses three main issues: (i) what degree of coherence exists in EU competition law; (ii) how this coherence can

Online Library European Commission Eaepc

be explained, particularly in the broader context of integration by EU law; and (iii) how it contributes to the legitimacy and effectiveness of EU competition law. Specific focus is placed on antitrust, while mergers, state aid control, as well as the sectoral regimes for energy and electronic communications are also examined. In

Online Library European Commission Eaepc

addition the book also charts the history and framework of these competition regimes that jointly constitute EU competition law, defining both its objectives and limitations.

Although competition law and intellectual

Online Library European Commission Eaepc

property are often interwoven, until this book there has been little guidance on how they work together in practice. As the intersection between the two fields continues to grow worldwide, both in case law and in regulation, the book's market-based approach, focusing on sectors such as pharmaceuticals, IT, telecoms, energy and

Online Library European Commission Eaepc

agriculture in eleven of the world's most active jurisdictions, provides a much-needed in-depth understanding of how this interplay reveals itself among the different legal systems. Written by a range of authors including judges, regulators, academics, economists and practitioners in both fields, the book provides an international

Online Library European Commission Eaepc

comparative perspective as well as detailed analysis of specific cases, policies and proposals for change. Among the issues and topics covered are the following: – free movement of goods and the protection of intellectual property rights; – standard essential patents & injunction in patent cases; – intellectual property rights between

Online Library European Commission Eaepc

technological development and consumer protection; – geo-blocking; – online platforms and antitrust; – excessive prices. In this context, special attention is paid throughout to the increasing dialogue among Competition Authorities and between Judges and Competition Authorities around the world. As matchless

Online Library European Commission Eaepc

remedy for the lack of uniformity heretofore, the book's investigation of the nexus between competition law and intellectual property in different sectors and in various countries takes a giant step towards a more-balanced approach and more-levelled regulation and practices. It will be warmly appreciated by policy

Online Library European Commission Eaepc

makers, decision makers, regulators,
practitioners and academics in both
competition law and intellectual property
fields
