Folding Hannibal's life into Hellenistic culture without reference to de Beer as a major interpreter of the great captain's Greek and Phoenician roots is a major drawdown in the merit of the book. As with other classicists and their classical studies of Hannibal, the center of gravity here is placed firmly on the work of others who have ...

The life of the great Carthaginian general who marched into Rome during the Second Punic War is reexamined in this revealing and scholarly biography. Once of the greatest military minds of the Ancient World, Hannibal Barca lived a life of daring and survival, massive battles, and ultimate defeat. A citizen of Carthage and military commander in Punic Spain, he famously marched his war elephants and huge army over the Alps into Rome's own heartland to fight the Second Punic War. Yet the Romans were the ultimate victors. They eventually captured and destroyed Carthage, and thus it was they who wrote the legend of Hannibal: a brilliant and worthy enemy whose defeat represented military glory for Rome. In this groundbreaking biography, Eve MacDonald employs archaeological findings and documentary sources to expand the memory of Hannibal beyond his military career. Considering him in the context of his time and the Carthaginian culture that shaped him, MacDonald offers a complex portrait of a man from a prominent family who was both a military hero and a statesman. MacDonald also analyzes Hannibal's legend over the millennia, exploring how statuary, Jacobean tragedy, opera, nineteenth-century fiction, and other depictions illuminate the character of one of the most fascinating figures in all of history.

This is an historical biography of Hannibal, the military leader of Carthage responsible for waging a dramatic onslaught on Rome during the Punic Wars. One of the few generals of history to be famous for the war he lost, Hannibal's attack in 218BC - which included his renowned march of elephants across the Alps - ranks amongst the most courageous and ill-fated enterprises in the history of the ancient world. This definitive biography of one of the most fascinating figures of ancient history offers a fresh perspective on the demise of the Hellenistic world and the rise of Rome.

Alexander * Demosthenes * Phocion * Eumenes * Demetrius * Pyrrhus * Agis and Cleomenes * Aratus * Philopoemen * Flamininus This selection of ten Lives traces the history of Hellenistic Greece from the rise of Macedon and Alexander's conquest of the Persian empire to the arrival of the Romans. Plutarch's biographies of eminent politicians, rulers, and soldiers combine vivid portraits of their subjects with a wealth of historical information; they constitute a uniquely important source for the period. We see how Greek politics changed as Macedon's power grew, and we learn of the warlords who followed Alexander. Resistance to Macedon is reflected in the Lives of Demosthenes and Aratus, and that of Agis and Cleomenes, two revolutionary kings of Sparta. The volume concludes with the emergence of Rome in Greek affairs, and the life of Flamininus, the Roman general who defeated Philip V of Macedon. Plutarch's elegant style combines anecdote and erudition, humour and psychological insight, consummately translated by Robin Waterfield and introduced by Andrew Erskine. These Lives from the Hellenistic

According to the ancient sources, Hannibal was nine years old when his father led him to the temple at Carthage and dipped the young boy's hands in the blood of the sacrificial victim. Before those gods, Hannibal swore an oath of eternal hatred toward Rome. Few images in history have managed to capture and hold the popular imagination quite like that of Hannibal, the fearless North African, perched on a monstrous elephant, leading his mercenaries over the Alps, and then, against all odds, descending the ice-covered peaks to challenge Rome in her own backyard for mastery of the ancient world. It was a bold move, and it established Hannibal as one of history's greatest commanders. But this same brilliant tactician is also one of history's most tragic figures; fate condemned him to win his battles but not his war against Rome. An internationally recognized expert on Hannibal for nearly thirty years, historian John Prevas has visited every Hannibal-related site and mountain pass, from Tunisia to Italy, Spain to Turkey, seeking evidence to dispel the myths surrounding Hannibal's character and his wars. Hannibal's Oath is an easily readable yet comprehensive biography of this iconic military leader--an epic account of a monumental and tragic life.

The Romans' destruction of Carthage after the Third Punic War erased any Carthaginian historical record of Hannibal's life. What we know of him comes exclusively from Roman historians who had every interest in minimizing his success, exaggerating his failures, and disparaging his character. The charges leveled against Hannibal include greed, cruelty and atrocity, sexual indulgence, and even cannibalism. But even these sources were forced to grudgingly admit to Hannibal's military genius, if only to make their eventual victory over him appear greater. Yet there is no doubt that Hannibal was the greatest Carthaginian general of the Second Punic War. When he did not defeat them outright, he fought to a standstill the best generals Rome produced, and he sustained his army in the field for sixteen long years without mutiny or desertion. Hannibal was a first-rate tactician, only a somewhat lesser strategist, and the greatest enemy Rome ever faced. When he at last met defeat at the hands of the Roman general Scipio, it was against an experienced officer who had to strengthen and reconfigure the Roman legion and invent mobile tactics in order to succeed. Even so, Scipio's victory at Zama was against an army that was a shadow of its former self. The battle could easily have gone the other way. If it had, the history of the West would have been changed in ways that can only be imagined. Richard A. Gabriel's brilliant new biography shows how Hannibal's genius nearly unseated the Roman Empire.

To say the Punic Wars (264-146 BC) were a turning point in world history is a vast understatement. This bloody and protracted conflict pitted two flourishing Mediterranean powers against one another, leaving one an unrivalled giant and the other a literal pile of ash. To later observers, a collision between these civilizations seemed inevitable and yet to the Romans and Carthaginians at the time hostilities first erupted seemingly out of nowhere, with what were expected to be inconsequential results. Mastering the West offers a thoroughly engrossing narrative of this century of battle in the western Mediterranean, while treating a full range of themes: the antagonists' military, naval, economic, and demographic resources; the political structures of both republics; and the postwar impact of the conflicts on the participants

and victims. The narrative also investigates questions of leadership and the contributions and mistakes of leaders like Hannibal, Fabius the Delayer, Scipio Africanus, Masinissa, and Scipio Aemilianus. Dexter Hoyos, a leading expert of the period, treats the two great powers evenly, without neglecting the important roles played by Syracuse, Macedon, and especially Numidia. Written with verve in a clear, accessible style, with a range of illustrations and newly-commissioned maps, *Mastering the West* will be the most reliable and engaging narrative of this pivotal era in ancient history.

A dynamic and exciting way to understand success and failure, through the life of Hannibal, one of history's greatest generals. The life of Hannibal, the Carthaginian general who crossed the Alps with his army in 218 B.C.E., is the stuff of legend. And the epic choices he and his opponents made on the battlefield and elsewhere in life offer lessons about responding to our victories and our defeats that are as relevant today as they were more than 2,000 years ago. A big new idea book inspired by ancient history, *Hannibal and Me* explores the truths behind triumph and disaster in our lives by examining the decisions made by Hannibal and others, including Albert Einstein, Eleanor Roosevelt, Steve Jobs, Ernest Shackleton, and Paul Cézanne—men and women who learned from their mistakes. By showing why some people overcome failure and others succumb to it, and why some fall victim to success while others thrive on it, *Hannibal and Me* demonstrates how to recognize the seeds of success within our own failures and the threats of failure hidden in our successes. The result is a page-turning adventure tale, a compelling human drama, and an insightful guide to understanding behavior. This is essential reading for anyone who seeks to transform misfortune into success at work, at home, and in life.

Considered to be one of the most talented generals in history and known for his use of elephants in battle, the Carthaginian general, Hannibal spent his life fighting and often defeating the Roman army during the Second Punic War. Though he was ultimately unable to take the city, he became a prominent political figure. Students will get the opportunity to learn about his unique militaristic prowess and successes and failures on and off the battlefield.
