Stock says the land route for human trafficking from the Horn of Africa to South Africa continues to show signs of worrying activity.

The end of apartheid has triggered massive illegal immigration into South Africa from all parts of Africa and beyond. Along with urbanization and internal migration, the end of apartheid has encouraged human smuggling and the trafficking of men, women, and children into the commercial sex market and various sectors of the economy from mining to agriculture and the service industries. Long Walk to Nowhere analyses the impact of these developments on Nelson Mandela's vision for a democratic South Africa. Frankel explores human rights, the political culture, public

health, the criminal justice system, and institutional development as South Africa moves into its third decade after liberation. Using migration and human trafficking as barometers for democratic success, Frankel establishes that South Africa has become more unstable under two post-Mandela presidencies. The book covers the three major modes of human trafficking?commercial sex trafficking, child trafficking, and labour trafficking. It also looks at the dynamics of trafficking with a perpetrator-focus, the complex issues of dominance, and the policy responses in light of South Africa's first comprehensive counter-trafficking legislation designed for implementation in late 2015. Long Walk to Nowhere blends South African experiences with contemporary mass political movements which challenge human rights and good governance on a world-wide basis.

Child maltreatment constitutes a social problem that affects all societies of the world. A recent study by the World Health Organisation points out that millions of children suffer some form of maltreatment and require medical and social attention. Therefore, child maltreatment is not a new phenomenon; it has been around since the beginning of time. Child maltreatment is recognized as an important psychopathological risk factor and is associated with poor psychological function in childhood and adolescence and adulthood. The aim of this book is to address the issue of child abuse and neglect from a multidimensional perspective. The reader will find a selection of internationally recognized works addressing the issue of child maltreatment both from theoretical and applied view.

Acces PDF Human Trafficking In South Africa

This book investigates the links between human trafficking and national security in Southern Africa. Human trafficking violates borders, supports organised crime and corrupts border officials, and yet policymakers rarely view the persistence of human trafficking as a security issue.

Adopting an expanded conceptualisation of security to encompass the individual as well as the state, Richard Obinna Iroanya lays the groundwork for understanding human trafficking as a security threat. He outlines the conditions and patterns of human trafficking globally before moving into detailed case studies of South Africa and Mozambique. Together, these case studies bring into focus the lives of the 'hidden population' in the region, with analysis and policy recommendations for combating a global phenomenon.

"In South Africa, women and children

make up the vast majority of the human trafficking chain whether for sexual exploitation or other forms of forced labour. This is a result of push factors that are rooted in poverty, inequality, discrimination and a lack of economic opportunity that provoke survival strategies exposing the most vulnerable to exploitation and abuse. Pull factors include the huge economic differentials that make South Africa an alluring destination" --Unesco website.

This monograph provides a detailed review of the disarmament, demobilisation and reintegration process carried out during the transition to democracy in post-conflict Burundi. It draws heavily on the experiences of those involved in the planning and execution of the process, and suggest what lessons might be drawn from the relative success achieved.

This volume brings together a cast of leading experts to carefully explore how the history and iconography of slavery has been invoked to support a series of government interventions, activist projects, legal instruments, and rhetorical performances. However well-intentioned these interventions might be, they nonetheless remain subject to a host of limitations and complications. Recent efforts to combat contemporary slavery are too often sensationalist, self-serving, and superficial and, therefore, end up failing the crucial test of speaking truth to power. The widely held notion that antislavery is one of those rare issues that "transcends" politics or ideology is only sustainable because the underlying issues at stake have been constructed and demarcated in a way that minimizes direct challenges to dominant political and economic interests.

Acces PDF Human Trafficking In South Africa

This must change. By providing an original approach to the underlying issues at stake, Contemporary Slavery will help readers understand the political practices that have been concealed beneath the popular rhetoric and establishes new conversations between scholars of slavery and trafficking and scholars of human rights and social movements.

Acces PDF Human Trafficking In South Africa

Working conditions? Are sex workers able to leave if they want to? The answers to these and many other questions about the sex work industry can be found in this book. This two-year study by the Institute for Security Studies and the Sex Worker Education and Advocacy Task Force is the first complete survey and analysis of the sex work industry in a South African city, Cape Town. It analyses numbers, earnings, working conditions and various aspects of exploitation of both street-based and brothel-based sex workers, and makes recommendations on how exploitation of sex workers can be prevented. As human trafficking into prostitution is of concern both in South Africa and worldwide, the book examines and reports on the extent to which trafficking is a feature of the sex work industry in Cape Town.
