installations and vessels. Guidance for heliport design and operations in the onshore environment is still in development and will be included in a future edi JavaScript seems to be disabled in your browser.

ICAO Doc 9261:2020

The purpose of this updated Heliport Manual, which replaces all previous editions, is to provide guidance in implementing the above-mentioned specifications. The manual deals with three principal types of heliports, namely, surface level heliports, elevated heliports and helidecks which may be located on offshore installations or ships.

Online Library Icao Heliport Manual Doc 9261

The Heliport Manual (Doc 9261) is divided into two parts to address helicopter landing areas at a range of offshore installations and vessels (Part I), as distinct from the heliports used in the onshore environment (Part II). Chapter references in this document are to chapters in Part I unless noted otherwise.
