La política y la superstición se entrelazan en Venezuela en un singular fenómeno político en el que la santería cubana ha servido para ejercer control sobre los dirigentes políticos y militares. El periodista hispano-venezolano David Placer destapa la relación del chavismo con las ciencias ocultas en una obra original y reveladora. Por primera vez, una investigación periodística desvela el carácter supersticioso de Hugo Chávez, un presidente que se rodeó de brujos y santeros. Tras un minucioso trabajo que incluye a más de 70 entrevistas a allegados, amigos, miembros del gobiernos y ex colaboradores, Placer saca a la luz cartas privadas y extractos del diario personal del ex presidente venezolano hasta ahora desconocidos. He is one of the most controversial and important world leaders currently in power. In this international bestseller, at last available in English, Hugo Chávez is captured in a critically acclaimed biography, a riveting account of the Venezuelan president who continues to influence, fascinate, and antagonize America. Born in a small town on the Venezuelan plains, Chávez found his interests radically altered when he entered the military academy in Caracas. There, as Hugo Chávez reveals in dramatic detail, he was drawn to leftist politics and a new sense of himself as predestined to change the fortunes of his country and Latin America as a whole. Portrayed as never before is the double life Chávez soon began to lead: by day he was a family man and a military officer, but by night he secretly recruited insurgents for a violent overthrow of the government. His efforts would climax in an attempted coup against President Carlos Andrés Pérez, an action that ended in a spectacular failure but gave Chávez his first irresistible taste of celebrity and laid the groundwork for his ascension to the presidency eight years later. Here is the truth about Chávez's revolutionary "Bolivarian" government, which stresses economic reforms meant to discourage corruption and empower the poor-while the leader spends seven thousand dollars a day on himself and cozies up to Arab oil elites. Venezuelan journalists Cristina Marcano and Alberto Barrera Tyszka explore the often crude and comical public figure who condemns George W. Bush in the most fiery language but at the same time hires lobbyists to improve his country's image in the West. The authors examine not only Chávez's political career but also his personal life-including his first marriage, which was marked by a long affair and the birth of a troubled son, and his second marriage, which produced a daughter toward whom Chávez's favoritism has caused private tension and public talk. This seminal biography is filled with exclusive excerpts from Chávez's own diary and draws on new research and interviews with such insightful subjects as Herma Marksman, the professor who was his mistress for nine years. Hugo Chávez is an essential work about a man whose power, peculiarities, and passion for the global spotlight only continue to grow.

The institutional, economic, and social breakdown of Venezuela is not the result of the dismantling of Hugo Chávez's legacy, but rather a result of his policies. It is like a boomerang which, as it returns to the person that throws it, shatters the glass in which the father of the Bolivarian revolution saw

himself: from benefactor to the poor to culprit for the great shortages, inflation, and violence which buffets the country, especially its lower class—scarcity of basic goods, long lines at stores, widespread crime... The Things of Others: Ethnographies, Histories, and Other Artefacts deals with the things mainly, but not only, mobilized by anthropologists in order to produce knowledge about the African American, the Afro-Brazilian and the Afro-Cuban during the 1930s.

According to the Latina health paradox, Mexican immigrant women have less complicated pregnancies and more favorable birth outcomes than many other groups, in spite of socioeconomic disadvantage. Alyshia Gálvez provides an ethnographic examination of this paradox. What are the ways that Mexican immigrant women care for themselves during their pregnancies? How do they decide to leave behind some of the practices they bring with them on their pathways of migration in favor of biomedical approaches to pregnancy and childbirth? This book takes us from inside the halls of a busy metropolitan hospital's public prenatal clinic to the Oaxaca and Puebla states in Mexico to look at the ways Mexican women manage their pregnancies. The mystery of the paradox lies perhaps not in the recipes Mexican-born women have for good perinatal health, but in the prenatal encounter in the United States. Patient Citizens, Immigrant Mothers is a migration story and a look at the ways that immigrants are received by our medical institutions and by our society
