The Mathematical Literacy pathway can branch to a STEM-path (Science, Technology, Engineering, and Math), and also serves students who have different needs for their academic majors – most notably statistics and basic science courses. This Pathway is taught using a spiral approach. During the first cycle, the basic facts of a subject are learned, without worrying about details.

Pathways is a new course model whose goal is to accelerate students through the

Online Library Math Lit A Pathway To College Mathematics

developmental math sequence, while tailoring the material to each student's specific educational needs. These courses often emphasize the conceptual over procedures, and present the math through contextual applications. Pearson offers a variety of solutions for a pathways course.
