If you count 9 lines, the size is a 9-mm (millimetre) nut. If the nut is US standard, count the smallest lines on the tape measure in sixteenths. Add the sixteenths together to find the size. If you count 11 lines, the size of the nut is 11/16. You can also measure from point-to-point to find the "Whitworth system" measurement.

### ~~How to Measure The Size of a Nut~~

For starters, measuring your feet size is a foolproof way to arrive at the exact shoe size. Even though the sizing differs with brands and the measuring unit of the country you are based out of, big names are pretty standard and have set conversion charts.

### ~~How To Measure Shoe Size - A Guide With Sizing Chart~~

1) FIND YOUR SHOE SIZE: Using a tape measure or ruler, measure the distance from the back of your heel to the end of your longest toe (in mm). Use the table below to work out your UK shoe size. Remember to measure the length of both of your feet! Most people have feet of different sizes and the length of your longest foot should determine your shoe size.

### ~~Foot Measurement Guide - Sandpiper Shoes~~

How to measure your bra band size. Stand upright without a bra on, and using a measuring tape, measure around your back and under your bust, where the band of a bra would usually sit. Make sure the tape is going around in a steady, even line. It should feel snug, but not tight. Measure in inches: if it's an even number, that is your band size.

### ~~How To Measure Bra Size: The Vogue Guide | British Vogue~~

Use the largest of your measurements to determine your shoe size. For example, if your left foot is 1/4 inch longer, then use your left foot's length measurement. If your right foot is slightly wider, then use that number as your width. After you have the length and width, subtract 3/16 of an inch from each of those numbers.

### ~~How to Measure Your Feet for Shoes - LiveAbout~~

The question 'what bra size am I?' is something that we hear often in the fitting room, so it might surprise you that you won't find tape measures at Bravissimo! Our boobs are wonderful 3D things and we all have a unique shape and for this reason we don't find using tape measures much use to measure your bra size - how could you measure a pint of milk with a ruler?!
