A collection of readings on topics such as abortion, organ transplantation, and HIV. Valuable for practitioners, and students of medical ethics.

Medical Law and Ethics covers the core legal principles, key cases, and statutes that govern medical law alongside the key ethical debates and dilemmas that exist in the field. Carefully constructed features highlight these debates, drawing out the European angles, religious beliefs, and feminist perspectives which influence legal regulations. Other features such as 'a shock to the system', 'public opinion' and 'reality check' introduce further socio-legal discussion and contribute to the lively and engaging manner in which the subject is approached. Online resources This book is accompanied by the following online resources: - Complete bibliography and list of further reading - Links to the key cases mentioned in the book - A video from the author which introduces the book and sets the scene for your studies - Links to key sites with information on medical law and ethics - Answer guidance to one question per chapter

Get Through FRCR Part 1: MCQs and Mock Examination is the essential and highly praised revision aid for the Royal College of Radiologists' FRCR Part 1 exam. Providing comprehensive coverage of the new FRCR Part 1 syllabus, this title presents questions in a similar style to the exam, accompanied by detailed yet uncomplicated explanations. Paying special attention to legislation, this book also covers recent advances in the field and radiation protection issues. Get Through FRCR Part 1 is ideal for FRCR candidates and tutors, radiographers, radiologists and medical physics students.

Best of Five MCQs for the Geriatric Medicine SCE is the first revision guide designed specifically for this new high-stakes exam. It contains 300 best of five questions with explanatory answers, each accurately reflecting the layout of questions in the exam. The book is divided into three exams for trainees to test themselves on, providing a thorough assessment of the candidate's geriatric medicine knowledge and covering all the main themes of the exam, for example, falls, dementia and delirium, palliative care, nutrition, and stroke. The explanatory answers include references to guidelines and other sources to enable candidates' further reading and study. Ideal for Geriatric Medicine Specialty Registrars, trainees revising for the Geriatric Medicine Specialty Certificate Examination or the Diploma in geriatric medicine.

Candidates can prepare with confidence for the Geriatric Medicine Specialty Certificate Examination with this revision guide designed specifically for the exam. Containing 300 Best of Five questions, the content is carefully mapped to the curriculum ensuring comprehensive preparation. The questions mirror the format of those candidates can expect to find in the exam, and cover all of the key topics, including dementia and delirium, palliative care, nutrition, and stroke. Explanatory answers include references to guidelines and other sources to enable further reading and study. The second edition addresses the latest clinical guidelines and supporting literature. Non-vitamin K Antagonist Oral Anticoagulants (NOACs), and changes in health and social care policy. This new edition is also suitable for candidates preparing for the Diploma in Geriatric Medicine exam. Providing a thorough assessment of the reader's geriatric medicine knowledge, this is the only revision guide candidates will need to pass the Geriatric Medicine Specialty Certificate Examination first time.

This book provides 300 practice MCQs divided into three practice papers. Correct answers follow, accompanied by short referenced notes drawing from recent important journal articles, major critical care textbooks and selected internet resources. Since there is no other dedicated intensive care MCQ book on the market, this book is relevant to the following groups: junior intensive care trainees, senior intensive care nursing staff wishing to enhance their medical knowledge, intensive care consultants as a teaching aid and trainees preparing for professional examinations. This MCQ book will also be ideal in preparation for the European Diploma in Intensive Care Medicine (EDIC) Part 1 examination, as the questions are matched as closely as possible in style and difficulty to those in the EDIC Part 1. The EDIC is an internationally recognised qualification for medical trainees in intensive care, set by the European Society for Intensive Care Medicine (ESICM). It is a two-part examination consisting of a 100-question multiple choice paper (Part 1) and a clinical and viva voce examination (Part 2). To ensure relevance, the questions are designed with reference to the training syllabus provided by the ESICM.

MRCOG PART 2: 550 MCQs, EMQs and SAQs offers the most up-to-date and comprehensive coverage of practice questions for trainees preparing for the MRCOG Part 2 written exam. Presented in a clear layout, chapters are mapped to the syllabus to deliver structured revision in all the key topics. Featuring a wealth of practice questions and fully descriptive answers, this book provides the essential revision tool to maximise chances of exam success. 550 questions, comprising 250 MCQs, 250 EMQs and 50 SAQs, reflecting the breadth of topics encountered in the actual exam Answers feature concise rationales to consolidate knowledge and understanding Extensive evidence-based referencing to relate theory to clinical practice

An invaluable self-assessment tool for emergency medicine trainees in Australasia. Emergency Medicine MCQs is an essential resource for Australasia ' s emergency medicine trainees. A practical self-assessment tool, the book assists trainees as they expand and refine their knowledge of emergency medicine, and will ultimately help them pass the Australasian Emergency Medicine Fellowship examination (FACEM). The multiple-choice questions in Emergency Medicine MCQs cover both the core and non-core areas in the Australasian Emergency Medicine Fellowship. Using this text, trainees can revise alone or with their peers to identify the areas in which they need further development. The curriculum is divided into three main areas where trainees require expert level of knowledge, high level of knowledge and general level of knowledge. It covers important clinical problems encountered in everyday emergency medicine practice – from cardiovascular emergencies through to obstetric and gynaecology emergencies, disaster management and toxicology. As well as being ideal for emergency medicine trainees qualifying through AECM, the book is a useful resource for GPs taking the GEM qualification through ACEM and JMOs ' on call ' . Plus, this emergency medicine text is accompanied by an app – a separate product containing 180 randomised multiple-choice questions on all the topics within the book.
