Behaviorism has been the dominant force in the creation of modern American psychology. However, the unquestioned and unquestioning nature of this dominance has obfuscated the complexity of behaviorism. Control serves as an antidote to this historical myopia, providing the most comprehensive history of behaviorism yet written. Mills successfully balances the investigation of individual theorists and their contributions with analysis of the structures of assumption which underlie all behaviorist psychology, and with behaviorism's role as both creator and creature of larger American intellectual patterns, practices, and values. Furthermore, Mills provides a cogent critique of behaviorists' narrow attitudes toward human motivation, exploring how their positivism cripples their ability to account for the unobservable, inner factors that control behavior. Control's blend of history and criticism advances our understanding not only of behaviorism, but also the development of social science and positivism in twentieth-century America.

EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

On February 20, 1962, John Glenn became a national star. That morning at Cape Canaveral, a small-town boy from Ohio took his place atop a rocket and soared into orbit to score a victory in the heavily contested Cold War. The television images were blurry black-and-white phantoms. The cameras shook as the rocket moved, but by the end of the day, one thing was clear: a new hero rode that rocket and became the center of the world's attention for the four hours and fifty-five minutes of his flight. He became celebrated in all corners of the world as not just the first American to orbit the Earth, but as the first space traveler to take the human race with him. From that day forward, Glenn restively wore the hero label. Wherever he went, people knew his name and what he

had done. Refusing to let that dramatic day define his life, he went on to become a four-term US senator—and returned to space at the age of seventy-seven. *The Last American Hero* examines the many layers that formed the man and unravels the reasons for his singular role. He was a creation of the media, in some ways, but he was also a product of the Cold War. Not even Glenn himself seemed to fully understand his celebrity. He was a war hero, a two-time astronaut, a veteran senator, a devoted husband, a father, and much more. At a time when increasingly cynical Americans need heroes, his aura burns brightly in American memory.

*The Black Conservative: An American Hero* By Richard Jules Valvano Can a powerful piece of fiction undo the negative stereotyping cast on a group of individuals and make them noble and heroic? In this riveting and explosive novel, the author is betting it will. For years, the black left has cast politically conservative African-Americans as insensitive traitors to the Civil Rights Movement. They are seen as unhinged thinkers who dare to question liberal conventional wisdom concerning black matters and issues. They are often depicted as “ Uncle Toms ” and whites in dark skin who actually want blacks to be passive porters, shoe-shiners and doormats in a white society. *The Black Conservative: An American Hero* not only challenges these stereotypes, it does it by way of an engaging thriller filled with fascinating characters. The entire effect is meant to give black conservatives a human element, an insight into their thinking, and a culmination of a renewed and invigorating image of them.

Co-edited and introduced by Toni Morrison, winner of the Nobel Prize in Literature, *Birth of a Nation*'hood elucidates as never before the grim miasma of the O.J. Simpson case, which has elicited gargantuan fascination. As they pertain to the scandal, the issues of race, sex, violence, money, and the media are refracted through twelve powerful essays that have been written especially for this

book by distinguished intellectuals--black and white, male and female. Together these keen analyses of a defining American moment cast a chilling gaze on the script and spectacle of the insidious tensions that rend our society, even as they ponder the proper historical, cultural, political, legal, psychological, and linguistic ramifications of the affair. With contributions by: Toni Morrison, George Lipsitz, A. Leon Higginbotham, Jr., with Aderson Bellegarde Francois and Linda Y. Yueh, Nikol G. Alexander and Drucilla Cornell, Kimberlé Williams Crenshaw, Ishmael Reed, Leola Johnson and David Roediger, Andrew Ross, Patricia J. Williams, Ann duCille, Armond White, Claudia Brodsky Lacour

"In this splendid book, David Roediger shows the need for political activism aimed at transforming the social and political meaning of race.... No other writer on whiteness can match Roediger's historical breadth and depth: his grasp of the formative role played by race in the making of the nineteenth century working class, in defining the contours of twentieth-century U.S. citizenship and social membership, and in shaping the meaning of emerging social identities and cultural practices in the twenty-first century."—George Lipsitz, author of *The Possessive Investment in Whiteness* "David Roediger has been showing us all for years how whiteness is a marked and not a neutral color in the history of the United States. *Colored White*, with its synthetic sweep and new historical investigations, marks yet another advance. In the burgeoning literature on whiteness, this book stands out for its lucid, unjargonridden, lively prose, its groundedness, its analytic clarity, and its scope."—Michael Rogin, author of *Blackface, White Noise*

A unique and timely exploration of the cultural impact of sport on American society, including lifestyles, language, and thinking.

In compelling narrative, the authors probe the sensational cases of Nathan F. Leopold, Jr., and Richard A. Loeb, the Scottsboro

"boys," Bruno Richard Hauptmann, Alger Hiss, and O.J. Simpson, highlighting significant lessons about criminal behavior and the administration of criminal justice. Each case study details the crime, the police investigation, and the court proceedings, profiles the major players, and examines the outcome and aftermath of the trial. The authors untangle the perplexities surrounding the cases and illuminate the many mysteries that remain unsolved today. These celebrated trials reveal issues of overzealous prosecution, sloppy police work, judicial bias, race, class, and ethnic struggles, and the role of wealth in securing a competent defense. They also show how the temper of the times and frenzied media coverage heightened the intensity of drama in the cases.

Shakespeare, The Movie brings together an impressive line-up of contributors to consider how Shakespeare has been adapted on film, TV, and video, and explores the impact of this popularization on the canonical status of Shakespeare. Taking a fresh look at the Bard and his place in the movies, Shakespeare, The Movie includes a selection of what is presently available in filmic format to the Shakespeare student or scholar, ranging across BBC television productions, filmed theatre productions, and full screen adaptations by Kenneth Branagh and Franco Zeffirelli. Films discussed include: \* Amy Heckerling's Clueless \* Gus van Sant's My Own Private Idaho \* Branagh's Henry V \* Baz Luhrman's William Shakespeare's Romeo and Juliet \* John McTiernan's Last Action Hero \* Peter Greenaway's Prospero's Books \* Zeffirelli's Hamlet.

Analyses media coverage of O. J. Simpson trial and divided reactions of 'White' and African Americans.
