Introduction to Swing Trading—Investopedia

As a swing trader, you're holding on to your positions overnight, and really don't want to be glued to the computer screen all day. And since a trading strategy will enter on the open or close of a bar in a majority of cases, this means that you'll need to make use of a timeframe that's pretty long, not to have to monitor the close and open of each 5-minute bar, just to give an example.

4 Reasons Why This Time Frame is Best for Swing Trading—

Traders can use the close of each four-hour candle as an opportunity to adjust stops (particularly the break-even stop), or to take profits while also looking to trigger new positions.
