The Anarchists Tool Chest

An excellent intro to the why of hand tool craft and expression rejecting the pointless materialism found in modern furniture. Chris Schwarz is funny and yet conveys a serious message wrapped up in the guise of a book about building a tool chest. Among my favorite books on the subject, and certainly a great read. flag 1 like · Like · see review

Like all books from Lost Art Press, “The Anarchist’s Tool Chest,” is printed and bound in the United States on acid-free #60 paper. The 6” x 9” hardcover features pages that are sewn together for durability and the book’s boards are covered in cotton cloth. This book is 494 pages and includes a full index.

The Anarchist's Tool Chest – Lost Art Press

Screw this Anarchist’s Tool Chest Stuff. 1. It requires one sheet of 3/4” shop-grade birch plywood and one sheet of 1/2” shop-grade birch ply. These make the carcass, lid and sliding trays. 2. The skirts and dust seals are made entirely out of one 12’-long 1×12 of some solid wood. 3. The case is ...

This book, The Anarchist’s Tool Chest, paints a world where woodworking tools are at the center of an ethical life filled with creating furniture that will last for generations. It makes the case that you can build almost anything with a kit of less than 50 high-quality tools, and it shows you how to select real working tools, regardless of their vintage or brand name.

In five days, we are going to build traditional full-size English tool chests – a.k.a. “The Anarchist’s Tool Chest,” from Christopher Schwarz’s book of that title – using (mostly) hand tools. If you don’t like dovetails, this is not the class for you. If you’d like to learn dovetails (while you build a sturdy chest that holds about 50 hand tools...which is to say almost all the hand tools you need to build furniture), this is absolutely the class for you – you’ll get ...

20L0316 - The Anarchist's Tool Chest. 20L0316 - The Anarchist's Tool Chest. Description. Description. A self-proclaimed "aesthetic anarchist", Schwarz challenges the notion that woodworkers need a vast array of specialized tools, encouraging them to choose and use their tools more thoughtfully.

With all the answers to your fundamental woodworking questions, this is an indispensable guide to basic skills and techniques, and how to apply them.

A fresh argument for rioting and looting as our most powerful tools for dismantling white supremacy
Looting—a crowd of people publicly, openly, and directly seizing goods—is one of the more extreme actions that can take place in the midst of social unrest. Even self-identified radicals distance themselves from looters, fearing that violent tactics reflect badly on the broader movement. But Vicky Osterweil argues that stealing goods and destroying property are direct, pragmatic strategies of wealth redistribution and improving life for the working class—not to mention the brazen messages these methods send to the police and the state. All our beliefs about the innate righteousness of property and ownership, Osterweil explains, are built on the history of anti-Black, anti-Indigenous oppression. From slave revolts to labor strikes to the modern-day movements for climate change, Black lives, and police abolition, Osterweil makes a convincing case for rioting and looting as weapons that bludgeon the status quo while uplifting the poor and marginalized. In Defense of Looting is a history of violent protest sparking social change, a compelling reframing of revolutionary activism, and a practical vision for a dramatically restructured society.

Volume 1 of the candid, no-holds-barred account by American anarchist Goldman relates her philosophical and political journey through life, beginning with her emigration from Russia to the U.S. in 1886.

The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author" "This book... is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There i detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant.

The award-winning masterpiece by one of today's most honored writers, Ursula K. Le Guin! The Word for World is Forest
When the inhabitants of a peaceful world are conquered by the bloodthirsty yumens, their existence is irrevocably altered. Forced into servitude, the Athsheans find themselves at the mercy of their brutal masters. Desperation causes the Athsheans, led by Selver, to retaliate against their captors, abandoning their strictures against violence. But in defending their lives, they have endangered the very foundations of their society. For every blow against the invaders is a blow to the humanity of the Athsheans. And once the killing starts, there is no turning back. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

God and the State (called by its author The Historical Sophisms of the Doctrinaire School of Communism) is an unfinished manuscript by the Russian anarchist philosopher Mikhail Bakunin, published posthumously in 1882. The work criticises Christianity and the then-burgeoning technocracy movement from a materialist, anarchist and individualist perspective. It has gone on to become Bakunin's most widely read and praised work.
