War Child: Memories Of A World War Ii Childhood by Maurine ...

Childhood in war refers to children who have been affected, impaired or even injured during and in the aftermath of armed conflicts. Wars affect all areas of involved persons' life, including physical and mental-emotional integrity, social relations with the family and the community, as well as housing. More often than not, these experiences affect a child's further development. The Heidelberg Institute for International Conflict Research estimated that there were 226 politically-motivated armed
